Thursday, May 7 at 12:30 PM EST

From: Provost Ann E. Cudd and Vice Provost Laurie J. Kirsch

Subject: Tell Us How COVID-19 Has Impacted You

Dear <First Name>,

COVID-19 has impacted every member of the University community. As the world navigates a new normal, one thing will not change: The University of Pittsburgh is committed to providing our faculty and students with the tools and resources necessary to fulfill our mission of education, research, and community impact.

We are asking for your help to do more and do better. So that we can understand your perspective and your feelings as a faculty member during this time, we hope you will complete a survey that asks about the impact of COVID-19 on your experience. This survey will provide important information about resources and support, research and scholarly work, and teaching and technology, and communication. Your feedback is essential as we develop plans, policies, and procedures for the time ahead.

The COVID-19 Faculty Survey is an anonymous survey. We will not ask for your name and will not attach your name to your survey answers. Further, any information that could identify you will be removed before the results are shared.
