The University of Pittsburgh is only as strong as the people who carry out its mission. The University of Pittsburgh is proud to promote an atmosphere where our faculty can maintain a successful and healthy balance between their academic careers and their personal lives. Dual Career Hiring Program
To support the recruitment and retention of a world-class faculty, the Office of the Provost has a dual career hiring program. This program provides support for partners of tenure and stream-stream faculty the University is trying to recruit or retain, and who also have academic careers.

It focuses on general issues of campus climate and programs as they affect women throughout the University. PACWC also seeks to assist the Provost and the University community through its mandate.

Faculty Medical and Family Leave Policy
This policy establishes leaves of absence for faculty for medical (including pregnancy and childbirth), parental, and other family care purposes. Its goals are to assist faculty members in balancing the demands of the workplace with family obligations, and to establish equitable practices across the diverse departments, schools, and campuses of the University.

Tenure Track Considerations
When a faculty member takes medical or family leave, he or she may request that the year in which the leave is taken not count towards the mandatory tenure review. When a faculty member becomes a parent by birth or adoption, whether or not a leave is taken, the academic year in which the birth or adoption occurs shall not normally be counted as a year towards mandatory tenure review.
